2030 Census Planning Timeline

EARLY PLANNING PHASE

October 2018– September 2021

DESIGN SELECTION PHASE

October 2021–2024

FINAL PLANNING PHASE

2025–2027

IMPLEMENTATION PHASE

2028–2030

Begin Early Planning
- Analyze operational metrics.
- Study lessons learned.
- Review stakeholder feedback.
- Explore potential enhancements.

Conduct Initial Design Research
- Identify high priority areas for research.
- Conduct intensive research and testing on potential enhancements.
- Finalize design enhancement recommendations (March 2024).

Solicit Feedback for 2030 Planning
- Receive input from the public through the Federal Register Notice (November 2022).
- Release comments to Advisory Committees for prioritization and feedback (March 2023).
- Release all comments received from the public (March 2023).
- Publish report with final recommendations (Fall 2023).

Select Initial Design
- Choose initial operational design based on feedback, research, evolving technology, and the changing world (December 2024).

Finalize Plans, Conduct Tests
- Develop detailed plans for each operation.
- Test new design features as needed.

Implement Plan
- Finalize census content.
- Execute the operational plan.

Census Day
April 1, 2030

Decennial Census Stakeholder Input

Sources of Input for 2030 Census Planning and Execution

Census Bureau Staff
- Recommendations from 2020 Census lessons learned, debriefings, and studies conducted under the Evaluations, Assessments, and Experiments (EAE) program.
- Internal solicitation of 2030 research ideas.
- 2030 Census Enhancement Areas research projects.
- Ongoing work and continuous improvement for 2030 Census.

Government Agencies
- Content review by federal agencies with data needs (e.g., DOJ, HHS, HUD, EPA, EEOC).
- Consultations with tribal governments.
- Guidance on the use of administrative data (e.g., IRS, SSA, Medicare/Medicaid).
- Data needs from territory governments.

Oversight Entities
- Oversight and budget from Congress.
- Oversight from the Office of Management and Budget.
- Oversight from the Department of Commerce, including Office of the Inspector General audits.
- Government Accountability Office recommendations.

External Experts and Stakeholders
- Recommendations from Census Bureau advisory committees.
- Recommendations from research entities (e.g., CNSTAT, NCRN, JASON).
- Data needs from federal and state data centers.
- Input from national statistical organizations of other countries.
- Input from community partners.

General Public and Respondents
- Public feedback from the Federal Register Notices on the 2030 Census.
- Public comments at advisory committee meetings.
- Public comments at Program Management reviews.
- Research participants in 2030 Census Research and Testing (e.g., focus groups, cognitive testing).

Note: CNSTAT refers to the Committee on National Statistics, DOJ refers to the U.S. Department of Justice, EEOC refers to the U.S. Equal Employment Opportunity Commission, EPA refers to the U.S. Environmental Protection Agency, HHS refers to the U.S. Health and Human Services, HUD refers to the U.S. Housing and Urban Development, IRS refers to the Internal Revenue Service, NCRN refers to the Non-degree Credentials Research Network, SSA refers to the U.S. Social Security Administration

2030 Census Research Federal Register Notice (FRN)

Goal: Seek input from the public to develop and implement strategies to improve participation in the 2030 Census. Highlighted **five categories**:

- Reaching and motivating everyone – focus on historically undercounted populations
- Technology – new ways to leverage technology in data collection
- New data sources – additional data sources, including administrative records and third-party data
- How we contact respondents – tailored contact strategies
- Respondent support services – online, telephone, language, and on-the-ground support

Timeline: August 17 – November 15, 2022

FRN Analysis Process

Submissions and Comments

We received submissions via three modes:

- FRN Portal
- Email
- Voicemail

Each submission may contain more than one comment

- Example: One email submission could have 3 comments:
    - 2 comments addressed Technology
    - 1 comment addressed New Data Sources

Evaluating and Analyzing

Evaluating:

As submissions were received, they were evaluated to determine whether any comments contained were in-scope

Analyzing:

Comments that were in-scope were slated to undergo a full analysis:

- Categorized by topic (e.g., Reaching and Motivating Everyone, Technology)
- Mapped to EA or Ongoing Research
- Shared with SMEs who will further analyze them for potential inclusion in 2030 research

Initial Analysis of Comments by Category

Category	Total: Cumulative	Total: Percent
Reaching and Motivating Everyone	2,493	31%
Technology	452	6%
New Data Resources	271	3%
How We Contact Respondents	591	7%
Respondent Support Services	362	4%
Content	1,577	20%
Operations Management	1,385	17%
Other	955	12%
Total	8,086	100%

Note: Evaluation is ongoing and subject to change pending further review.

Submissions

Note: Submissions may contain multiple comments.

Submissions by Mode

Submission Mode	Total: Cumulative	Total: Percent
FRN portal	1,652	54.1%
Email	1,393	45.6%
Voice Mail	7	0.2%
Total	3,052	100%

Notes:
Evaluation is ongoing and subject to change pending further review.
The number of submissions is lower than the number of comments previously referenced, since each submission may contain multiple comments.

Submissions by Submitter Affiliation

Submitted Affiliation	Total: Cumulative
Former Census Worker	461
Local Government	92
Federal Government	17
Academia	15
Private Sector	19
Park East High School	54
Design Thinking Workshop	13
Other	188
Not specified	2,196
Total	3,052

United States® Census Bureau

Notes:
Evaluation is ongoing and subject to change pending further review.
Additional categories may be added as they emerge.

Pre-decisional – Results are Preliminary

ADCOM Outreach Activities

Activity	Total: Cumulative
Dedicated Conversations to Key Stakeholders/Partners	66
Customized Emails Based on Audiences	36
Social Media Posts	86
Email Marketing	39
Media Interviews	3
Virtual Design Thinking Workshops	7
In Person Design Thinking Workshops	6
Mentions at Meetings/Conferences with External Groups	80

What We Heard...

Respondent Support Services
- Language support
- Live chat help
- Stand up self-response stations
- Increase call center capacity

Contact Respondents
- Hire a workforce that empowers the historically marginalized
- Use vans and buses to reach populations in low-response areas
- Provide funding for Tribal Governments to enumerate their populations

New Data Resources
- Leverage commercial shipping data
- Use municipal data
- Enter info when submitting taxes

Reaching and Motivating Everyone
- Partner with school districts
- Partner with adult education programs
- Incentivize early response
- Partner with children's shows
- Emphasize data confidentiality
- Partner with local rental communities, gated communities, etc.

Technology
- Partner with private technology companies
- Use tablets
- Use QR codes
- Develop an app

NAC/CSAC Review

- Categories for Spring review:
  - Technology
  - New Data Resources
  - How We Contact Respondents
  - Respondent Support Services
  - Operations Management
  - Other

- Category for Summer review:
  - Reaching & Motivating Everyone

- NAC and CSAC to each deliver 10 prioritized research recommendations from the FRN comments

United States® Census Bureau

Census Bureau Questions

- What are the top ten research ideas from the FRN comments that you recommend the Census Bureau should pursue for the 2030 Census?

- What would NAC like to hear about how the Census Bureau is incorporating comments from the 2030 Census FRN in the future?
